PROFILE

Junior Frontend Developer and IT student with hands-on experience in building real-world web applications using React and JavaScript. Worked on university and team-based projects, including an Attendance Marking System and a Smart Booking System. Motivated to grow as a frontend developer, improve UI/UX skills, and contribute to real products through teamwork and continuous learning.

EXPERIENCE

SU Solution — Full Stack Developer (Intern)

September 2025 – December 2025

- Developed a web-based Attendance Marking System for university use
- Implemented student attendance tracking, reporting, and leave request features
- Built REST APIs and integrated frontend with backend services
- Improved attendance management efficiency for the university IT department

Tech Stack: Python, Django, React.js, JavaScript, REST API, PostgreSQL, HTML, CSS

StartApp — Frontend Developer (Team Project)

February 2025 – April 2025

- Built the frontend of a Smart Booking System using React
- Implemented an online queue system allowing users to book dentist appointments remotely
- Collaborated with backend developers to integrate REST APIs
- Focused on responsive UI and user-friendly experience

Tech Stack: React.js, JavaScript, REST API, HTML, CSS

EDUCATION

Salymbekov University, Bishkek IT and Business College

September 2024 – December 2025

INTI International University, Malaysia Exchange Program (Academic Mobility Program)

January 2026 – April 2026
